

How to get treasure map in Travel Town [#P/N!?!]

if you find yourself running out of energy in the travel town game it can hinder your progress while waiting for the energy meter to refill is an option it can be time consuming there are alternative methods to replenish your energy and keep playing travel town is an up and coming merge 2 project from a british developer called magmatic games the game started buying traffic in early 2022 and has been making steady progress ever since an especially impressive performance surge came in early 2023 downloads increased by more than two times and revenue almost tripled if the trend was anything to go by this is just the beginning part of the orders help you earn coins but some come with toolboxes as a reward this adds an extra meta game mechanic and lets players develop various strategies by prioritising some orders over others i love this game the only thing i can't get to grips with is that it seems that the timers restaurant speed boat museum etc don't seem to move unless you are on the actual game once you played all your moves who's going to sit with the app open until it reloads not me and some of the timers the wait time in them is far too long and if you want to skip waiting it's far too expensive i expect to get bored of this game eventually the other thing the shop where you can purchase stuff you should be able to purchase other items like painting from the museum i've cream and desserts it seems that aspect of

the game is still stuck at level one offering only sand castles shells and food from the basket that also goes the same for chests as you progress further in the game people ask for other stuff that s not level one stuff sand bucket basket but that s what you are being rewarded with eventually you will end up with a board filled with stuff you don t need also it would be good if you could sell the sand buckets or picnic baskets i don t need like 10 of them spec when the people are asking for other things from other places another great feature would be if you could give the item to the person freeing up some space on the board until those order is completed all in all the game is a great concept and i do enjoy playing it thanks for your hard work everyone
