

## Travel Town free energy link [#^'KE~]

cheats ios travel town free energy link 2024 today version discover 55 villagers living in a tourist town and help them restore their seaside town upgrade by matching items unlock more and more items and provide support for your journey cheats ios travel town free energy link 2024 today version discover 55 villagers living in a tourist town and help them restore their seaside town upgrade by matching items unlock more and more items and provide support for your journey i love this game the only thing i can't get to grips with is that it seems that the timers restaurant speed boat museum etc don't seem to move unless you are on the actual game once you played all your moves who's going to sit with the app open until it reloads not me and some of the timers the wait time in them is far too long and if you want to skip waiting it's far too expensive i expect to get bored of this game eventually the other thing the shop where you can purchase stuff you should be able to purchase other items like painting from the museum i've cream and desserts it seems that aspect of the game is still stuck at level one offering only sand castles shells and food from the basket that also goes the same for chests as you progress further in the game people ask for other stuff that's not level one stuff sand bucket basket but that's what you are being rewarded with eventually you will end up with a board filled with stuff you don't need also it would be good if you

could sell the sand buckets or picnic baskets i don t need like 10 of them spec when the people are asking for other things from other places another great feature would be if you could give the item to the person freeing up some space on the board until those order is completed all in all the game is a great concept and i do enjoy playing it thanks for your hard work everyone the same types of offers pop up when there s an event with a unique playing board and its own energy going on the price setting and rewards are the same with the exception of energy that resource is event specific
