i do enjoy this game but i do have some comments that could make the game better i had this order where i needed the sewing kit to get the cloth to make the clothes i had a little over 100 energy and did get a single sewing kit i do understand that is not the main item and the side ones are supposed to be a little harder to get i wish they could do it so that you don t have to waste so much energy to not even get a single one i do find myself trying to complete an order the whole day and not even finishing with the odds that the items come out i wish they could have a higher chance to get those another thing is the energies i wish they were not so expensive compared to other games the amount of energy you get in a day doesn t match the orders i can t even complete daily quests because i m stuck on one order that brings me to my next point the amount of daily quests is ridiculous i have at least one day where the daily quests are 22 and the max is 63 000 coins that need to be earned i can t even get 20 000 coins in a day most times i feel there needs to be more reasonable with the amount of coins that need to be earned to complete a quest now i do enjoy this game it is fun and i like the different items you unlock at each level and the idea of building a town in the beginning you will only have limited space to merge and some objects are covered by sand so focus on the same items that can unblock more space as you level up more rooms will be

freed and you can have a wider range of objects on the merge board travel town s gameplay is centered around the core mechanics of merge 2 puzzles players are tasked with completing characters orders by merging items earning resources and using them to construct buildings in the city this process is accompanied by an unobtrusive dialogue based narration adding depth to the gameplay and enriching the player s experience it s not difficult at the beginner level as you only have a limited number of items on the board but as you go forward organizing the items in the same types will make you more ease when you need a certain item
